**Soft Skills:** Communication, Team Collaboration, Problem-Solving, Adaptability, Time Management

## PROJECTS

---

### Personal Portfolio Website

Live: [Portfolio](#) — GitHub: [Repository](#)

A personal portfolio website developed using React to showcase my skills, projects, and contact details.

- Designed a clean, professional layout using React functional components.
- Added sections for projects, about me and resume.
- Implemented smooth scroll, animations, and responsive design for various screen sizes.

### REST Countries API Explorer

Live: [REST Countries](#) — GitHub: [Repository](#)

An interactive application that displays country data fetched from the REST Countries API with filtering and theme toggle features.

- Fetched and displayed live country data using Fetch API and displayed with React.
- Users can filter countries by region or search by name.
- Implemented light/dark mode toggle with a responsive user interface.

### Focus on Today – Daily Goal Tracker

Live: [Focus on Today](#) — GitHub: [Repository](#)

A goal-tracking app that helps users stay motivated and complete daily tasks efficiently.

- Users can set and track up to three daily goals with real-time updates.
- Integrated motivational quotes based on task progress.
- Implemented Local Storage for data persistence across sessions.
- Fully responsive design optimized for both mobile and desktop.
